DR. WARREN'S

SARSAPARILLA TOMATO AND WILD CHERRY

PHYSICAL BITTERS,

At 50 cents per Bottle.

SARSAPARILLA TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a safe speedy, and effectual remedy for *Scrofulous, Mercurial and Cutaneous Diseases*, Jaundice Indigestion, Dyspepsia, Bilious disorders, Liver Complaints, Costiveness, Weak and Sour Stomach, Ulcered and Inflamed Sores, Swelling of the Limbs, Pain in the Bones, Tumors in the throat, Rheumatic affections, Salt Rheum, Ringworm, Humors, Eruptions on the face or body, Cancerous sores, King's Evil, Chronic Catarrh, Languor, debility, headache, dizziness, sallow complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood not to be now acquired.

I do extract more present and prepare after directions given by the celebrated Dr Warren, whose name is a guarantee of its virtues and it will be found superior to any preparation of the kind now in use. It is highly concentrated entirely vegetable and very finely flavored to render the taste as pleasant as possible, while its effect in producing a healthy change which it produces in the condition, and tendency of the system is *speedy and permanent*.

As a Spring Medicine for purifying the blood—strengthening the stomach and bowels and clearing the skin it cannot be surpassed.

Prepared and sold by DAVID F. BRADLEE, at the *Magazine Store* (Mansion of Hobart) 130 Washington street, Boston. General Agent for Buchan's Hungarian Balsam of Life, Upham's Life Elixir, Brad lee's Purifying and Preserving Pills, Dr Jackson's Infallible Eradicator, Bradlee's New England Hair Restorative, Brad ee's Superior Cologne Water &c.

Also—as above, all the Popular Medicines in general use, pure and genuine, at the lowest possible prices.

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles Inflamation of the Liver and Spleen, Inflamation Soreness and Ulceration of the Stomach Bowels, Kidneys and Bladder Inflamatory and Mercurial Rheumatism Impurity of Blood Weakness and Inflamation of the Spine, and for the Relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr A Upham, a distinguished Physician of New York city, is the only really successful remedy for this dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, with or bleeding or blind, internal or external, and probably the only thing that will. It is a retentive case—*speedy and permanent*. It is a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve boxes, at 81.3 cents a dose. It is very mild in its operation and may be taken in cases where it would be inflamation without danger—All structural applications in the highest degree is agreeable, inconvenient and offensive, and from the very nature of the disease, temporary in their effects. The Medicine attacks the disease at its source and REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES

A though this LECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character with a determination of blood to any part called part or organ. In inflamation and congestion of the Liver and Spleen, Inflamation, Scirrhus and Ulceration of the Stomach Bowels Kidneys and Bladder in inflamatory and mercurial Rheumatism, it is the *Best Medicine ever discovered*.

IMPURITIES OF THE BLOOD

For all impurities of the Blood arising from the imprudent use of Mercury or other causes, for all diseases of the Kidneys and Scrofulous Affections in a word where the blood is poisoned by the use of mercury, causing dizziness and disease, DR UPHAM'S ELECTUARY is entirely unrivalled.

TO MARRIED LADIES

Married Ladies in the most barren, by subject to that painful and injurious disease, the PILES, with constant inflamation of the Stomach, Bowels and Spine, weakness of the back flow of blood to the head &c—the Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used as it will not only prevent the Piles and inflamatory disease, WITHOUT PAIN or IRRITATION but will ensure easy labor, a safe delivery, and a speedy convalescence, in the following

CURE FOR LIFE GUARANTEED

The Electuary is the NO MERCURIAL Medicine no Aloes Colocynth Gamboge, or other gross or injurious purgative. No fear of taking cold while under its influence no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTEED.

Pamphlets giving valuable information respecting this Medicine may be had of Agents gratis.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland Me, March 14, 1847

Dr Upham—My dear Sir—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a prisoner to the Bleeding Piles for 10 years past, so much so that I became reduced to a skeleton with loss of appetite, and general derangement of the digestive organs. My mind became affected, and in fact I was a misery to myself. I was of liquid to give up my business. I had tried all the most approved and best advice the Doctors in Boston and it is place could afford, spent much money—and were submitted to painful operations. I had become perfectly tired of life and at the suggestion of my friends I was induced to try a box of your valuable Pile Elect. I first found to relieve me slightly, but I persevered, and purchased a second and I assure you when I got half through, I found myself getting well, still I kept on, and now I am a well man. My dear Sir language cannot express the heartfel thanks that I am once more restored to health and now in a condition to support my large family, depending on me.

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON

RUST PROOF IRON,

FOR

ROOFING WINDOW SHUTTERS, &c.

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, prominent among which they do the strength and lightness of iron without its liability to rust having now been tested several years both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc &c or any other metal now used for roofing and consequently form a much better and tighter roof requiring far less frequent repair, whilst the first cost is but a little more.

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their galvanized Wire which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails Spikes Bolts Wire &c they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe,) constantly on hand from 16 to 32 wire gauge.

KELLEY & CO.'S SARSAPARILLA!

FOR SCROFULA, DYSPEPSIA JAUNDICE, LIVER COMPLAINT COSTIVENESS, HUMORS, RHEUMATISM

THIS valuable medicine is used FOUR times as much now as ever. This is because that not only PHYSICIANS but the public know it by experience to be FAIR the BEST, and therefore give it their united preference to any other preparation, or form of Sarsaparilla.

Kelley & Co.'s Sarsaparilla,

is so strong and so certain to do good, but more than all, is known to have performed so many astonishing cures of DYSPEPSIA—of SCROFULA and of every form of RUN DOWN CONSTITUTION that it has in spite of every opposition which self interest or malice could devise, won its way to the favor of PHYSICIANS and the public in SIX STATES of the UNION in a very short time.

Try it! Try it. Let not the frequent disappointments which you meet with in the sale of other articles deprive you of the ALL HEALING and HEALTH-RESTORING power of the MEDICINE.

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U S Patent Office Washington

22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents is Agent of the U S Patent Office for the purpose of obtaining and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented or deposited therein which will be received and forwarded, free of expense and risk, to their owners and with all possible despatch. The subscriber will prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings, will make researches in the American and Foreign works for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fourteen years practice—an extensive collection of rare works documents, decisions, &c on the national subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts never kept in any other office, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment.

More Light---Crutchett's Solar Gas.

Light, is said to be the fourth want of the human family, and it is therefore highly desirable that what artificial light is needed should be supplied at the cheapest rate. So a vast many have reasoned, and hence unnumbered experiments have been made in the way of furnishing a good and a cheap light.

The most popular discoveries and invention in the way of producing light upon a large or limited scale, are those of James Crutchett of Washington city, and which have caused the Congress of the United States to order the Capitol to be lighted by the solar gas invented by Mr. Crutchett. This invention has been well tested in several large manufactories, hotels and churches, and it is found that while it produces a light of much greater brilliancy than gas made from coal or rosin, its cost is only about one half as much.

This result is effected by the peculiar apparatus invented by Mr Crutchett, by which from 40 to 50 per cent of atmospheric air (containing as is well known a proportion of oxygen) is added to, and mixed with the carburetted hydrogen before it reaches the burners, and this in exact and determinate proportions, so that all danger of an explosive mixture is entirely prevented: an advantage never before obtained — This is effected by a self-regulating machine, so contrived that it is supposed to be impossible for it to get out of order.

This gas is free from deleterious effects, does not corrode, and will not soil metallic substances.

The power of a five foot burner of *coal gas* is considered equal to the light of eight sperm candles, and the difference of illuminating power between coal gas and the solar gas, is as 3 to 1 in favor the latter: i. e. a five foot burner of solar gas, would give a light equal to 24 sperm candles. A five foot burner is the size ordinarily used for street lamps. Now suppose it 100 rods from the Bangor House to Smith's Block, and that distance lighted by 20 5 feet burners 5 rods apart. It lit with *coal* gas we have an illuminating power equal to 160 sperm candles—if by the *solar* it will be equal to 480 sperm candles. Then consider that the solar gas, bulk for bulk, can be made at half the cost of coal gas, and we have a fair statement of the superiority of the solar over coal gas.

While upon this subject we cannot help thinking of the immense waste of oil in the manufacture of lumber on the Penobscot River, and how easily might those blocks of mills at North Bangor, Stillwater, and Old Town, be *splendidly* lighted for at least one quarter of what it now costs them.

For instance, one gallon of oil, or other grease, (soap-grease) will make 90 cubic feet of gas, to which is to be added 40 cubic feet of atmospheric air, making in all 130 cubic feet of solar gas ready for use. The oil may be had for 30 cents per gallon (cotton seed oil) in any quantity. Now this amount of gas would supply those 20 lamps between the Bangor House and Smith's Block, 1 hour and ¼, with a light sufficiently brilliant to enable one to read a newspaper, as he travelled, the whole distance between these points.

In regard to the cost of the apparatus it is very trifling when compared with the benefits obtained.

Of course the gas holder will be made of a size to correspond with the number of burners it is intended to supply. They cost from 10 to 13 cents per lb.

Cast iron pipes are to be had for 2 cents per lb.

But in order to give an opportunity to figure understandingly, we have obtained the following prices which are now paid in lighting up the Capitol.

Cast iron pipes for streets, at 2 cents per lb.

3	in diam.	¼ in.	thick	9 ft long	weighs 13 lbs.
3	"	⅜ "	"	9 "	" 19 "
3	"	½ "	"	9 "	" 152 "
4	"	½ "	"	9 "	" 0 "

Wrought iron service pipes.

¼	inch diameter	at 29	cents	per foot
½	" "	" 23	"	" "
1	" "	" 16	"	" "
¾	" "	" 12	"	" "
⅝	" "	" 10½	"	" "
½	" "	" 9	"	" "

Retort for making gas $250.

Now if we understand this matter, and we have endeavored to, then our city could be lighted inside and out, with the solar gas for about one quarter less than it now costs to light it imperfectly as it is now done, inside. We suggest that the enterprise of setting up a gas factory here would be likely to pay vastly better than bringing in the water from Pushaw Pond.

A magnificent experiment is to be made shortly of lighting the public grounds at Washington—thirty acres—with one grand lising gas burner. It is to be on a shaft 18 inches diameter, and ninety feet high, surmounted by a splendid lanthorn.

☞ We tender our thanks to Col Maxwell, conductor on the Eastern Rail Road, to Capt Jewett, and to Mr. Haines, Clerk of the Governor, for papers forwarded us yesterday, in advance of the mail, by our prompt friend Mr. Taylor.

The News from Mexico—Very Foggy.

The telegraphic news of Gen Scott entering Mexico seems to be involved in great doubt.—The New York Journal of Commerce states that Gen Scott was at Puebla on the 17th of July the day reported of his entering the city of Mexico. But a letter published in Ohio said to be from an officer in the army states, that on the 15th of July Gen Scott was within fifteen miles of the city.

In view of all the information we have, therefore, we can come to no other conclusion, than that the report of our having possession of the capital of the Montezumes, is at least premature. The event is altogether probable, but there is little to warrant the belief that it had transpired as early as the 17th of July.

Election in Alabama.

The Mobile Daily Advertiser, dated the 24 inst. announces the result of the election in Mobile county the day previous. The result as far as heard from (only three small precincts being behind) is a triumph of the Whig party. Nicholas Davis, Whig, leads R Chapman, Loco for Governor, 270 votes. For Congress, John Gayle, Whig, has a majority of 213 over J. T. Taylor, Loco, and the remaining precincts will not, it is said, reduce his majority below 180.—[The majority for Mr. Dargan, Loco, present member, two years ago, was 213. There has been a Whig gain, therefore of nearly 400 votes in Mobile county.] The Mobile Advertiser thinks that if Gayle makes no further gaines, he will be elected by 70 or 80 majority in the district. The Whig candidate for State Senator of Mobile county is elected, and of the Representatives ticket, two Whigs and one Democrat.

Temperance Addresses—Sons of Temperance.

We announce the following appointments for Addresses in behalf of temperance by Philip S. White Esq. of Philadelphia.

Mr White fills a high station in the Order of the Sons of Temperance. He comes to our city with a high reputation as a man of pure life, of substantial worth and possessed of rare talents as an advocate of the good cause of Temperance. He has labored with great success in several of the States and been aided in his arduous duties by the helping hand of many good brethren and friends. We feel assured that Mr White is deserving he generous and hearty support and cooperation of every friend of Temperance within the city and wherever he may labor.

On Thursday afternoon the anniversary of the introduction of the order in this State will be observed by a grand public procession with regalia, with all the usual public demonstrations of the order. An address will be delivered on the occasion by Mr White.

☞ The Skowhegan Press thinks that the Whigs of Maine will want to know more about Gen Taylor's political views before voting for him. Very likely. And perhaps they may not vote for him then; certainly they will not should he fail to be nominated by a national convention. Let all this be well understood, between us and the People's Press. Still we see no necessity of any offishness in spreading before the people the merits of a meritorious man, who is an honor to our race and our country and the Whig party. He has revilers and abusers enough among locofocos and their allies, without receiving cool treatment from any Whig, even if that Whig is determined not to vote for him for President.

☞ The Bangor Antiquarian Society have given notice that their grand excursion will commence on Tuesday Aug. 24th and terminate on the following Friday evening. The steamer T. F. Secor has been engaged for the purpose and the price of a ticket for the passage is $3,00. Meals 25 cents each.

☞ We would direct the attention of our readers to the advertisement of Mr Sued to be found in our columns. Mr Shed has long been engaged as a teacher of Penmanship and he executes beautiful specimens of the graceful art.

He is now prepared to furnish the public with any quantity of his easy flowing clear and beautiful writing ink. This article is highly spoken of by those acquainted with it and so far as we have tried, it works well.

☞ The People's Press states that Mr. John Howes, a noted Rum seller was drowned, a few days since, by the upsetting of a boat, in Madison Pond.

For the Whig & Courier.

Economy in Government Expenditures.

As economy is the order of the day with this glorious administration, it may interest the curious in such matters to look at the cost of maintaining the Custom House on the North Eastern frontier of our State.

As an instance The Custom House in the Passadumkeag District expends as I am informed upwards of twenty thousand dollars annually over and above all its receipts for revenue, which sum is drawn from the pockets of the people through the National Treasury at Washington.

As we are on the eve of an election it may be of importance to the people to know for whose particular benefit this lavish expenditure of their money is made.

Upwards of three thousand dollars is paid to three individuals in Aroostook County for the protection of the revenue, two of whom are at remote points where under no circumstances would the importation of foreign merchandize amount to one half the salary of either one, and the duties collected by all have not for the last three years averaged one hundred dollars a year.

Perhaps the Northern democracy require this free expenditure as their share of the loaves and fishes with the South, or very possibly Mr Polk and his cabinet feel the importance of aiding the State of Maine in keeping the 'schoolmaster abroad' to teach the 'Madawaska French' the English language and the principles of pure democracy at one and the same time.

CUI BONO.

Masardis, July 1847.

Absence and Tardiness in Schools.

Our public school system is the pride and glory of our city. And since a good education is the richest legacy we can leave our children, any thing which has a tendency to endanger the permanency of this system, or to retard the progress of the young, becomes the immediate object of our attention. With a vigilant Committee, with skillful and devoted teachers, and with parents to co-operate with them, the highest results cannot be secured *without a constant* and punctual attendance. Without this, the great object for which a school is established is entirely defeated, and our money is expended in vain. The teachers of this city complain bitterly of the remissness of parents upon this subject, and resort to every species of entreaty to induce them to require their children to attend more regularly to school. By allowing them every now and then to stay away from school, they insensibly cheat them out of their education, and interpose a severe hinderance to the success of those who desire to progress. In the high schools of this city whole classes have been broken up by these ruinous practices. Parents are not aware of the extent of these evils; they should take care of those half days for in the course of a term, they frequently amount to whole weeks to their utter astonishment! Let us look at some of these evils

Scholars who are frequently absent lose the lessons of the day on which they are absent, and are incapable ofentimes of proceeding understandingly with their class when they return. The teachers are either obliged to suffer such scholars to fall behind the regular classes, and of them form a new class which must be to the injury of the regular classes, or to submit to the disheartening alternative of requiring their classes to wait till the laggards can be brought up. At the time of the teachers fully occupied with the existing classes, they cannot with any propriety take the former course, and they feel compelled to adopt the latter.

In some instances, the same lesson is assigned, and laboriously explained, by the teacher for three or four days in order that *all* may be prepared to proceed understanding ly; and after all, some luckless absentee will come and say, "*I was absent when the class went over that lesson, and I cannot understand it!*" This is a new demand upon the teacher's time and patience, which cannot be answered without neglect to the regular classes.

In the mean time, it is discovered that the *regular* scholars become disheartened, and to some extent listless, and their progress is evidently retarded. Now here is an incalculable waste of time, of money, of labor, of patience, and of improvement, in the existence of a condition of things now not faintly described. A very great injury must fall upon the delinquent himself. He is forming most ominous habits—habits of indifference to duty, to study and to his own character. No one can count up the evils that fall upon a young person, when he has lost his self-respect as a scholar so far as to feel without remorse his *inferiority* to his classmates, and can come without blushing habitually to a recitation which he must blunder through, because he was unable, from his irregularity, to learn the lesson.

But the individual is by no means the only injured party. In fact the *many*, the whole school are obliged also to suffer on account of the *few*. It is because of the absence of the *few*, that the *many* in the class are obliged to dwell four successive days upon a lesson which had been thoroughly explained upon the first. It is on account of the lagging *few* that the *many* are doomed to suffer the mortification of a *snail-like* progress during the whole term, and at its close to be required only a few pages ahead of the point from which they looked forward with high hope and a cheerful resolve at its beginning.

From the best information that can be obtained, and from the nature of the case, the conclusion is irresistibly forced upon us that most of the absence complained of—excepting, of course, that occasioned by sickness—is *entirely unnecessary*. A most every parent, by a little system of management in family affairs, can find ample time, aside from the six school hours, in which his child can perform his requirement. It is recollected that taking the year through, only *one half* of the time between the rising and the setting of the sun is demanded for school, even if we do not reckon the vacation, and the Wednesday and Saturday afternoons, to say nothing of the time which might be gained by early rising. It is understood, also, that many of those who spend their *school* hours in patent service, are wont to spend their *other hours* in play; thus evincing the worst parental care and system, and clearly demanding the action of those to whom the superintendence of the schools has been committed.

This course then is flagrant injustice to the whole school. It baffles all attempts at classification, without which the principal advantages of public over family education are lost. It deranges the general order of the school; it encroaches largely upon the time of those who attend regularly, and thereby robs them of no inconsiderable part of their rightful claim to instruction: it lowers the whole tone and standard of the school, and thus disparages its reputation among its neighbors. On what principle is it that any one can claim the enjoyment of a privilege common to all, on a condition, or in a manner which defeats the very object of its bestowment? The parent or guardian—unless in cases of urgent necessity—who sends his child irregularly to school, contends, so far, the public benefaction to him sell, and intercepts and destroys the advantages which would otherwise flow from it to others. Whoever, therefore, sets up a claim to send his child en to school or to keep them from it, on alternate days or half days, according to his own caprice, and irrespective of circumstances, claims his right of so doing his share of the common good, as to diminish the value of the share of others, whose title is equal to his own. D.

A distressing and fatal Accident.

On Tuesday 3rd inst on the way from Portland to Leeds, a little girl, only child of Mr. Charles Austin recently of Boston, E between 4 and 5 years of age fell from a stage coach and the wheel passed over its body, breaking some of the bones of its back. It lived but a short time. The mother and grandmother of the child were in the stage at the time of the accident, on their way to meet Mr. Austin in this city. The door of the coach was shut but not fastened and in looking out, she fell.

She was a very interesting child and had gained the affection, not only of her parents and near friends but by all who were acquainted with her. Gods ways to us are often dark and mysterious.—COM

☞ There was a heavy thunder storm in this vicinity on Wednesday evening.

The Isles of Shoals.

The King of these Islands, at the present time, is Hon Thomas B Leighton, who keeps the Light-House, and a very gentlemanly and intelligent man I find him to be. He owns the whole of Smutty Nose and Hog Islands, and is in a fair way to own the others if they can be bought, for he carries on the fishing business to support his family, and lays up his salary, which I think is $600. He will build a convenient Hotel this fall, large enough to have 60 sleeping rooms in it, and have the immediate charge of it himself, with his excellent wife for the landlady. When these arrangements are completed, the Islands will probably be thronged by company, for I do not know of a more desirable residence than this would be if there was a 'first rate' hotel here. The temperature of the weather is neither so cold in the winter nor so hot in the summer, by twenty degrees as on the main land. There is always a cool soft breeze in summer, which never chills and never causes one to take cold. On this Island (Smutty Nose) is a good bowling alley and a good well of water.—Two cows are kept here, and about five tons of hay are cut on Hog Island. Three cows and eighty sheep are also kept on Hog Island. Mr Leighton told me that he should probably raise three hundred bushels of potatoes on Hog Island, and he thinks with a little labor laid out on it in improving the grating, a thousand sheep might be kept there. It is the largest Island in the group.

Cutting Island there lives a good old hale and hearty German, who gets his living now by fishing. He is the father of the hotel keeper, and he bears the marks of many a hard siege. He told me he had served in the wars of Napoleon, and after those wars were over, he, with many others of his countrymen, enlisted under an English recruiting officer, for the South American service.

Gosport (Star Island) has about 20 voters, but generally, as some are absent all the time, they muster at elections from ten to sixteen voters. In this town are kept five cows and twice as many pigs, to say nothing of the cats and dogs, which are abundant; about five tons of hay are cut, and some potatoes, beans, &c. are raised.

Mr. Leighton claims two miles from his island to entitle him to his boat, to take me and a small party of ladies and gentlemen—staying here at the hotel, from Salem—to his house to spend the day. When we arrived, his excellent wife, and a six pretty and intelligent daughter Celia, (about 14 years old) came out to welcome us to their pleasant abode, where we found music and books and birds and flowers in abundance, to say nothing of the nice things with which we regaled our 'inner selves.' This Miss Celia had a beautiful wreath of flowers around her hair, another upon her hat, and looked so entirely unlike the other females of the Islands I have seen, that one would almost believe her to be some nymph just arisen out of the sea. Her father is her minister, her school teacher and her doctor. I think she told me she had not been on to the main land for four years, and has no desire to go—she is very happy where she is. She cultivates flowers and raises Canary birds, of which we saw twenty or thirty in her aviary. [Correspondence of the Exeter News Letter.

CHILLS AND FEVER.—*Wright's Indian Vegetable Pills* are one of the best, if not the very best medicine in the world for the cure of Intermittent Fever, because they excel all others in ridding the body of those morbid humors which are the cause, and are of all kinds of fevers, but of every malady incident to man. Four or five of said Indian Vegetable Pills, taken every night on going to bed, will in a short time make a perfect cure of the most obstinate case of chills and fevers; at the same time the digestive organs will be restored to a healthy tone, and the blood so completely purified that fever and ague, or disease in any form, will be absolutely impossible.

Beware of Counterfeits of all kinds! So many are counterfeited, others are made to resemble in outward appearance the original medicine. The safest course is to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

The genuine for sale by DAVID BUGBEE, who is the only authorized agent for Bangor.

WHOLESALE

Straw Bonnet Manufactory.

MRS. R. JORLAN,

No. 38 Main Street, ... (Up Stairs,)

SIGN OF THE GOLDEN BONNET,

BANGOR,

HAS the pleasure of informing City and Country Merchants, Milliners and dealers and purchasers generally that she has obtained a large stock of the richest Foreign Straw Braid and has engaged extensively in the manufacture of

STRAW BONNETS

to supply the trade. Purchasers are invited to examine her stock of

READY-MADE BONNETS,

which for numbers, durability, elegance of form, cleanness of color, fineness of fine and brilliancy of appearance, cannot be excelled, and are rarely equaled, even in the largest establishments in other cities.

Among her assortment are Bonnets suitable for the infirmity of age, the becoming race of fashionables, or for the wear of youth. The following are some of the styles of Braid from which they are manufactured:—

Florence, Ruthand,
Fly's Eye, Ade aide,
French Straws, China Pear,
Coburgh.

These Bonnets manufactured by MRS. JORDAN, and Braids brought to this city in the *original* form, without having been altered. They are in the latest style of form, and are in every respect like the first quality of custom-made Bonnets for the New York city wear.

MRS. JORDAN, having had great experience in New York, in years past, in the manufacture of Straw Bonnets, and now having connections there in the business, and believing that the Bangor people could be better served with Bonnets by the establishment of a Factory here for making them, has been at great expense for stock, machinery, and help, and having completed her arrangements so far as to be able to supply the market with desirable Bonnets, now asks of the public to sustain this branch of Home Manufacture, assuring them that in *quality* and *price* they shall have no occasion to complain.

Bonnets Cleansed, Bleached, Repaired, and elegantly finished, at very short notice. A new process of Bleaching has recently been discovered in New York, which is much admired, and which MRS. JORDAN has introduced into her Factory. It gives the Bonnets a remarkably clear and beautiful appearance.

MRS. JORDAN returns her sincere and hearty thanks to her numerous friends for their generous support and encouragement. She hopes by her enlarged business to give them all the greater satisfaction in the quality and price of her work.

Bonnets fitted and trimmed in all the latest modes and most desirable styles, at short notice, and reasonable prices.

☞ Dont forget to call at 38 Main Street, *up stairs*, at the sign of the GOLDEN BONNET.

PUSHAW HOUSE

THE public are informed that the delightfully located PUSHAW HOUSE, on the borders of Pushaw Lake, is now open for the reception of company, parties of pleasure, and visitors. The Boats are all in good order, and are amply provided with all the necessary tackle for fishing. The large and highly popular Sailing Boat is also in readiness.

Visitors may be sure of finding good fare, and every means put in requisition to render a visit to the LAKE one of the most delightful imaginable.

This House is mainly designed to accommodate pleasure parties from the city, and large parties may be sure of receiving the most gratifying attentions, and of having DINNERS prepared at short notice, and of spending a day in a variety of exciting sports, where their comfort will be promoted.

Salt-Water Bathing

AT BELFAST.

THE subscriber having made arrangements to keep open the BATHING HOUSE this season, in Belfast, would respectfully inform the public that he has thoroughly refitted and repaired the establishment, and he flatters himself that by care and attention to neatness in the premises, he shall merit and receive that liberal patronage which an enlightened public ought to bestow on such an establishment.

Invalids who visit watering places for the benefit of the warm bath, have every inducement to make Belfast the watering place of the season. The village itself is beautiful, besides having numerous lovely drives into the country. Excursions on the delightful Passagassawakeag Bay, and among its beautiful islands, are of frequent occurrence, and for whiling away the tedious hours of a stormy day, there are numerous resorts for amusement in and about the village. These amusements, while they serve to divert the mind, will also strengthen and invigorate the body.

The rooms will be open every day.

ADAMS HOUSE,

No. 371 Washington Street,

BOSTON.

L. & W. T. ADAMS beg leave to inform their friends and the public, that they have at the above new and splendid Hotel,

THE ADAMS HOUSE was erected during the past season to supply an obvious demand for increased and superior accommodations in this City. It is located on Washington street, within five minutes walk of the great Southern and Western Railroad Depots, and the business sections of the City. It is adjacent to the Park; and the Cupola commands a beautiful view of the Harbor and the adjoining towns.

The House has been constructed after the most approved plans, with all the modern improvements for the comfort and convenience of the Traveler, and the Constructor's long experience in Hotels has enabled him to introduce many improvements, which are, as yet, peculiar to this Establishment. It is built of Quincy Granite, and contains *one hundred and fifty Rooms*, conveniently arranged in suits and single apartments, well ventilated, and supplied with an abundance of pure soft water.

The Furniture was made to order from the best patterns, with special regard as well to comfort and convenience, as luxury and splendor.

Our Table will be supplied with all the luxuries of the season, and we pledge ourselves that the *first* rarities of the season shall be found upon it.

We have devoted unusual attention to the selection of Servants, and our Guests may rely upon prompt and polite attendance.

Porters will be in readiness at the various Depots to take charge of baggage, and provide Carriages for our Guests.

The Proprietors trust by strict attention to the wants of Guests to merit a share of patronage, assuring all who may favor them with a visit, that nothing shall be wanting on their part to render the ADAMS HOUSE second to none in the Union.

L. & W. T. ADAMS,
Proprietors.

Thompson's Compound Syrup of Tar and Wood Naphtha.—If a man sails, common sense will suggest that he ought to have recourse to proper medicine for the removal of his ailments. This may be done either by consulting a respectable physician, or by taking a preparation which has been properly tested, and met with the universal approval of the public. This plan, however, is seldom adopted, owing to the specious advertisements of ignorant quacks, who unblushingly assert that one particular medicine will cure every disease that flesh is heir to, from the tooth-ache to the gout. These wicked fabrications are read by a majority of the people, who swallow the bait; the result of which is, the public are first plundered, then half if not quite poisoned; and the rogue's fortune is made. *'quod erat demonstrandum.'* How much better it would be, if people would inquire into the merits of a particular medicine before purchasing. It would remove all doubts, and secure the purchaser from imposition. We make the above remarks induced to our recent Thompson's Compound Syrup of Tar and Wood Naphtha, a preparation of *standard merit* for the relief of consumption, asthmatic affections and diseases of the lungs and throat. This medicine we have used with the most triumphant results, and many cases of affections of the lungs have come under our notice, which were speedily cured by a few bottles of *Thompson's Compound Syrup of Tar and Wood Naphtha.* Be particular and get the genuine. It is prepared only by Agney & Dickson, at the N. E. corner of Fifth and Spruce streets.

The above medicine is for sale in this city by Hall & Young, agents, 4 Smith's Block.

Dr. Townsend's SARSAPARILLA,

The Most Efficacious Medicine in the World

This extract is put up in quart bottles, it is six times cheaper, pleasanter and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body. It is one of the very best Spring and Summer medicines ever known, it not only purifies the whole system and strengthens the person, but it creates new pure and rich blood, a power possessed by no other medicine. And in this lies the great secret of its wonderful success. It has performed within the past two years, more than 30,000 cures of severe cases of disease, at least 6000 of these were considered incurable. More than

3000 cases of Chronic Rheumatism,
5000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
50 cases of Scrofula,
1500 cases of the Liver Complaint,
300 cases of Disease of the Kidneys and Dropsy,
8000 cases of Cutaneous Eruptions of the blood viz — Blotches, pimples, blotches, boils, tetter, salt rheum, &c &c, together with numerous cases of old ulcers, pain in the side and chest, nervous affections, &c &c

This, you are aware, is a most important claim, but we have letters from physicians and druggists from all parts of the Union, informing us of extraordinary cures. Dr Van Buren, of one of the very great druggists in Newark, N J, informs us that he can refer to more than 15 persons in that place alone. There are few good cases in the City of New York which we will refer to with pleasure, and numbers of others here. It is the best and most one for the purpose of disease known. It has absolutely saved the lives of many persons.

FOR CHILDREN, THE FIRST SEASON,

are proved the cause of pain and, and prepared them for the summer season.

UNITED STATES OFFICER

Capt G M M Leon of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tell its own story

RAHWAY Jan 2 1847

A year since I was taken with the influenza, and my whole system fell into a debilitated state. I was induced to try Dr Townsend's Sarsaparilla, and after using two or three bottles, I was very much relieved and all my health gradually returned. I have since used it in my family, and would not be without it under any consideration. G M MCLEAN

SCROFULA CURED

This certifies to certainly proving that Dr Townsend's Sarsaparilla is the most effectual antidote of the blood. Numerous cures in one house is conclusive.

FROM CHURCH

New York, Dr Sir — I have the pleasure to inform you that the bottle of your Sarsaparilla received of Mr Stanfield, is the most excellent medicine. They work effectually, and I shall not be without it under any consideration. G W MCLEAN

SCROFULA CURED

This certifies to certainly proving that the Sarsaparilla is perfectly genuine, the most effectual antidote of the blood. Numerous cures in one house is conclusive.

FROM CHURCH

New York, Dr Sir — I have the pleasure to inform you that the bottle of your excellent
